

RESCUED PETS MOVEMENT 2021 ANNUAL REPORT

RescuedPets
MOVEMENT

Providing love, transport, and second chances.

REFLECTING ON 2021

11,952. That's the number of homeless and forgotten pets that we saved and transported to their new lives in 2021. When I think of all of these homeless animals leaving our area shelters and streets alive and getting the second chance they so deserve, I am so grateful to our incredible donors, fosters and volunteers for helping us change the landscape and outcomes for homeless pets in our area.

As we enter 2022, we do face challenges. As a transport rescue group that drove over 800,000 miles in 2021, we are dealing with record breaking gas prices, with the average price of diesel topping \$5.80/gallon and record high repair/maintenance costs for our fleet of vans. We also continue to face supply chain issues and inflationary pressure on our general operations. We know that with you by our side, we will get through these challenging times while continuing our mission.

I want to thank each of you for your continued support during these turbulent times and helping us rescue and transport an astounding 72,000 homeless pets since we formed in 2013. If you think about it, YOU are the "fuel" that keeps us running – YOU are the most critical part to our success.

We can't do our mission without YOU.

- Cindy Perini, President & Co-Founder

Rescued Pets Movement

Mission: Rescued Pets Movement Inc. is a 501c3 organization that provides a second chance for thousands of homeless dogs and cats through rescue, rehabilitation and transport to forever homes in communities throughout the United States that have a demand for adoptable pets.

Vision: The vision of Rescued Pets Movement is to be the nationally recognized model for the compassionate rescue, quality rehabilitation, and safe transportation of homeless animals through collaboration, communication and education with reputable animal welfare and transport partners across the United States in order to save a total of 100,000 animals from euthanasia by 2025.

SUPPORTER SNAPSHOT

Don is a long time animal lover and supporter of RPM. "RPM is a simple and compact organization; as good as any across Houston," said Don Sanders on his long-time support. "The staff go above and beyond to help these animals, from rescue to the day they transport to their new homes. Animals don't really like cages or travel, but RPM takes good care of these animals, and the end result is a good home. RPM is doing the right thing." Don and his family donated 3 transport vans when we needed them most along with financing our "Don Sanders Cattery". Because of Don, we have been able to double the number of cats we save each year. We would not be where we are today without his generosity and kind heart.

Thank you for everything, Don!

SUCCESS STORIES

In Houston, Paulie was nothing but another Pitbull. There was nothing special or unique about him to those that passed by because there are hundreds of other dogs exactly like him also waiting on a family to call their own.

But just like every animal we save, we quickly found that he was anything but ordinary. He was gentle and sweet and would take treats from you like a perfect gentleman. He knew not to jump and would bashfully wait for you to give him attention when you went in his kennel. He walked great on a leash and did all the things a good dog should do. Gratitude for being saved beamed from his gentle eyes.

Thanks to our rescue partners, Animal Rescue of the Rockies, Paulie now has a family of his own that will treasure him for the gem he is.

Paulie

Ray Ray

It was a hot summer day in a country town in West Texas. A Good Samaritan was driving down a back road when they spotted a lump of white fur right in the middle of the road. When they pulled over, what they found was a horribly injured kitten. He was missing an ear, had a completely cut off tail, and suffered with an injured paw.

That little injured kitten had a long road ahead, but he was a fighter!

Fast forward to November 18th at Rescued Pets Movement cat transport morning. A spunky one-eared kitten quietly awaits his turn to see the medical team and load up on the RPM van heading to his new life up north. After four months of battling upper respiratory infections, ringworm, and healing from his injuries, his big day had finally arrived!

Ray Ray's little body will always bear the scars of his accident and his face will have permanent nerve damage, but with the help of RPM and our rescue partners, he is able to live a long and happy life.

THANK YOU!

Thank you to all of our wonderful fosters, volunteers and donors! RPM could not operate without you all! Your compassion and kind hearts are the reason we are able to save so many animals everyday.
